Dear Chairman Hatch, Senator Wyden, Chairman Brady, Congressman Levin, Chairman Upton & Congressman Pallone:

We, the undersigned national member organizations of the Federal-Postal Coalition, which represents the five million federal and postal workers, retirees and their survivors, are writing to urge you to mitigate the recently announced increase in Medicare Part B premiums for those who are not “held harmless” and the consequent increase in the Part B deductible in 2017. We are also interested in preventing this from becoming a recurring annual exercise. We deeply appreciate the bipartisan cooperation that led Congress to mitigate the unprecedented Part B premium and deductible increases in 2016 through the *Bipartisan Budget Act of 2015* (2015 BBA), and we encourage Congress to once again avert the undue burden placed on people who are not held harmless in 2017 and in the future.

The Centers for Medicare and Medicaid Services (CMS) announced on November 10, 2016, that Medicare Part B premiums will rise by an average of \$4 per month for most beneficiaries, but will rise by more than \$12 per month for 30 percent of beneficiaries. This 10 percent increase comes on top of a 15 percent increase in 2016, when most beneficiaries saw no increase in their Part B premiums. The nominal 0.3 percent cost-of-living adjustment (COLA) for Social Security recipients in 2017 triggers the hold harmless provision in the Social Security Act. Through the hold harmless provision, the dollar increase in the Part B premium is limited to the dollar increase in an individual’s Social Security benefit. Roughly 70 percent of Medicare beneficiaries are held harmless, while the remaining 30 percent will shoulder the cost of the announced premium increase. The solutions advanced through the 2015 BBA are extended in the absence of a 2017 COLA but not in the event that the hold harmless is triggered by a minimal COLA.

Older adults and people with disabilities affected by the projected premium increase include: new Medicare enrollees in 2017; individuals not collecting Social Security benefits, such as those who delayed claiming it and public employees ineligible for Social Security; and beneficiaries already paying higher, income-related premiums. More than nine million beneficiaries dually eligible for Medicare and Medicaid are also subject to the higher premiums and state Medicaid programs will bear this cost.

This unfair situation was created years ago and it is time for Congress to right this unintended wrong. No beneficiary should be forced to pay more simply because some beneficiaries are afforded critical protections against reductions in their Social Security checks. Now compounded over two years, we are troubled by these Part B premium and deductible increases, most notably for current and newly eligible beneficiaries living on low and fixed incomes, and urge swift congressional action.

The longer Congress delays, the more uncertainty for our nation's retirees, and their families. We urge you to advance a solution that will lessen the projected Part B premium and deductible increases in 2017. Notably, we support an extension of the solutions included in the 2015 BBA. We also support extending the protections of the hold harmless provision to all beneficiaries.
