

Update on CA Federation Microsite

10/19/25 by Martha Raup, CA Federation Webmaster and CAB Chair:

- Archived posts can be found on [Events](#) (such as the CA Federation Conference in Reno), [Meetings](#), and [News](#).
- If you have information to share, please use the [Contact Webmaster](#) form found on the bottom of every page, or email it to csfncnarfe@gmail.com (especially if there is an attachment).
- A microsite for [Region08](#) is linked to the top of the [CA Federation](#) page, in the functional links. New information was added to the [Membership](#) page, with links to resources on the NARFE site.
- The [Presentations](#) from the CA Federation Convention have been posted! Recent additions include the [CDL Workshop](#) by Steve Walter and [Managing Your TSP](#) by Mercedes Johnson.

Report from the CAB-hosted Microsites Working Group - the Group07 training has finished: 28 webmasters were actively engaged in learning how to build microsites, including **Robert Davidson** of [Chapter 0455](#) and **Jerome Tercero** of [Chapter 0046](#). Both made commendable progress, and we hope to see published sites soon! **Melanie McCrossin** ([Chapter 0016](#)) also attended two sessions, and both **Jeri Benson** ([Chapter 1658](#)) and **Juanita Pardun** ([Chapter 1596](#)) attended the majority of sessions and have upgraded their microsites.

Future trainings will focus on assisting those webmasters whose sites have already been published. We will begin building new microsites and training new webmasters in 2026, so now is the time for chapters to request a site to be prepared for them. The [Microsite Tutorials](#) page has [Request a NARFE-hosted Microsite](#) tells how to use the [Contact CAB](#) form and get on the waiting list!
